

The Natural Flow of Busi-ness

Workshops

with

**'I am the ambulance at the top
of the hill'**

This may interest you if the following is an issue -

1. You are struggling to find flow as a busi-ness- somethings wrong!
2. Your culture and communication style are just not resonating with your employees. You may be experiencing a high turnover of talent?
3. Nothing is right for your employees and the 'Health' in Health and Safety is an increasing issue. Wellness is a core value of your busi-ness.
4. You simply need to upskill your senior team to help them understand flow and consciousness of SELF and how these maps to your busi-ness.

Workshop Outcomes

By participating fully in the 'The Natural Flow of Busi-ness' Workshops you can expect the following outcomes:

1. A new awareness and wider perspective on busi-ness flow
2. A better understanding of SELF, the business and how this effects employees
3. Tools and practices, you can implement immediately to improve flow and wellness
4. A new understanding of, appreciation for and relationship with staff
5. Identified opportunities to develop new habits and practices to grow flow in your busi-ness

My mission is to raise consciousness in business and in doing so teach employers and employees to live the life they were born to live.

1. I want to support you to create a working reality where everyone is automatically on the same page and heading in the same direction.
2. These workshops will change people's entire working reality. Instead of working in a vertical system with highs and lows, this will level everything out to a horizontal system where everything continually grows in a world of expansion and contraction.
3. On 'switching peoples lights on' everybody can work from the same page, understanding where they are as an individual and part of a group.
4. We can be part of growth as a divisible and a collective. It is a world of unity, where we all work as one co-creating a world of growth.

Workshop One

My workshops are interactive, I provide a workbook for you to take notes

- 1. Natural FLOW of Busi-ness**
 - a. Full clock and elements, we map your busi-ness**
